

TAMRO WEB REPORTS (TWR)

These days, lack of information is not the problem – it's the lack of satisfactory, relevant information. TWR gives you access to a large selection of up-to-date reports, containing interesting information in the form of sales statistics, stock balances, basic planning and invoicing documentation. You decide what you need.

THE CHOICE IS YOURS

TWR is an interactive web-based reporting system. It sits on a modern platform which is of great benefit to the user. TWR is a highly flexible system, giving you a great degree of freedom.

When it suits you

You don't have to wait for us to send you the information you need. Just download the reports when it suits you. In this way, you can quickly access information from current and previous years with the added option of selecting a specific period. Everything is quick and easy over the web and naturally, you never have to rely on someone else to obtain the information you need.

Customised solutions

First and foremost you decide what information you want. Tell us what you need and we will customise a solution just for you. You can also choose to have your reports delivered in either PDF or Excel format.
